My dear Friends

I am going off to  
my Island to get out of  
the matter touched on  
some sketch of which I have  
been very short for a while  
I instead of writing  
I like my good friend  
Mr Chapman - to whom  
I dictate to who writes  
"Type writer" to give you a  
copy of what I wrote  
whether I perhaps of her  
man - which speaks to you  
You will have seen what  
W. L. Garrison is not  
praised which is worthy of  
his great Father  
Your note has nearly  
has in how to reach  
reflected distinctly in Boston & N. B.  
ford but Col. Hallowell's pathy tele-  
graph to the Sergeant

left her leg & carried off  
her Colors from the ~~the~~ ship  
& partly of Fort Wagner  
& now Frank Shaw has written  
out & nobody has yet  
repeated that best epitaph  
of his on Col Shaw. better  
than any I know in history  
when offered by Lincoln  
intervention of his son body  
[who was buried under his flag]  
as the Cherry said -  
let Roberts bones rest there  
it is the best monument  
a Soldier can have -  
When I get home I shall try  
& come see you with my  
wife or daughter or both  
always Yours -  
J. M. Forbes

The enclosed copy of a circular which  
I had struck off for convenience  
in answering numerous pleas  
after you may also take to yourself  
sincerely expressed as it is!
